

'Excellent Coverage'

Decatur, Ga.

To the Editor:

On behalf of the officers and directors of the Southeastern Poultry and Egg Assn. we want to express our appreciation for the excellent coverage given our 1964 annual convention by Feedstuffs. I have just looked at the issue received today and was impressed not only with all the coverage, but especially your front page allocation to us. It has been a pleasure to work with your staff throughout the year, and especially Bob Brown, and we look forward to another big year for Southeastern and for Feedstuffs.

Robert H. Martin

Executive Secretary

Southeastern Poultry and Egg Assn.

Reader Regrets Leaving Industry

Vancouver, British Columbia

To the Editor:

It is with deep regret we find it necessary to ask you to cancel our subscription to Feedstuffs.

It has been our privilege and pleasure to have received Feedstuffs during the past many years. This is a journal which is a must for a feed company.

For the benefit of many of your subscribers, we would like to draw to your attention an incident which is causing us to disappear from the feed industry. We have been established on

leased railway land for many years, and find ourselves today in an area in which there is a redevelopment program. Although our location is still a logical one for our type of business, we are being forced to vacate our premises. On account of the fact that we were not the owners of the land, we were unable to negotiate in a manner which would have been beneficial to ourselves. This has been a very serious blow, and we will be discontinuing operations in the very near future.

H. Seidelman

United Milling & Grain Co., Ltd.

Likes 'Banker' Article

Chicago

To the Editor:

I was certainly pleased to see the front page article in the Jan. 18 issue on "Banking."

If we can get more bankers talking (and acting) like Mr. Uggen, progress will have been made in the feed man-banker relationship.

You may be interested to know that in talking with some of the staff of the American Bankers Assn., they tell us that their members (bankers) are reporting that many have been contacted by feed men since the publication of our booklet.

The cooperation of Feedstuffs in publishing the article by Mr. Uggen certainly is a valuable contribution to the program.

Emmett Barker

American Feed Manufacturers Assn.
