Dear Mr. Goldberg:

Thank you for the kindest letter I have received in many years.

I joined your branch not for what I could get out of it except the satisfaction of belonging to an Order that tries to help people in need!

But when you give to a high publicity organization you are ^{are} putting your light under a bushel. But if you ^{are} giving to some R.F.D. in the Humanities, where some part of the people will benefit then you are placing the light where all can see. I am limited in my ability to offset my income, so I send you some and a couple of other charities some.

You see I am unable to know who really need help, so do the best I can.

Tell Comrade Sid. Staneloff, that I regret the void place in his life, by the loss of his father.

But he must realize that "God" granted him a long life, and it is to be hoped a happy one that was a very ^{useful} one!
The ^{pain} joy in life is caused by man, and not by "God".

But Bill now realized that the Black is not the most important thing in life, but life itself; I am afraid that things will not change.

If you are considering a change in your Donations, please consider some of the ideas: R + D. in one of the Humanities; Some spare in a sport program; Some spare in a slight Handicap program; J.E. Education to help them to develop their educational potential. This should be separate from your present educational program.

Well I think I will close for now, wishing you one and all the best for the coming year.

Yours Sincerely
Harris Hunter.
